

User Manual for the Car Purchase Advisor System

Option 1

Option 1 will ask for your postcode number and assign the nearest retailer to your postcode address. **You need to enter a 4 digit number.**

You can go back to main menu from any point by using 0 as the input.

Option 2

Option 2 will give you suggestion about a retailer's available car.

The app will list out all available retailer's information.

Then, it will ask the **retailer id** that you want to buy from.

After you input the correct retailer id, then the app will prompt you to the submenu page and ask the input for the submenu.

You need to answer it according to the option e.g. i, ii, or iv.

You can choose to go back by inputting 0.

Option i

Option i will give you a random car from the retailer's stock.

Then, you will be prompted to the main menu.

Option ii

Option ii will give you a full list of cars from the retailer's stock.

Then you will be prompted to the main menu.

Option iii

Option iii is used if you want to get a certain type of car from the retailer's stock. You will be ask to **give the car type that you wish to filter.**

Please make sure that you only input the car type **which we have provided in the list.**

You can go back to main menu by inputting 0.

Option iv

Option iv is used if u want to get probationary licence permitted cars. The app will ask for which **license that you are currently using.**

You can go back to main menu by inputting 0.

Option 3

Option 3 is used when you want to order a car. The app will ask on which retailer id and car codes that you would like to buy.

The format **needs** to be in "retailer_id car_code".

In order to get the ratiler_id and car_code, **you need to go to option 1 or 2.**

If you input the correct format, an order is created.

You need to make sure that the retailer is open when you order it.

You can always go back to main menu if you need to get the retailer id and car codes by inputting 0.

Option 4

Option 4 is used to exit the app.
